

# BioMag® Goat anti-Mouse IgG (Fc Specific)

## Description

BioMag Goat anti-Mouse IgG (Fc Specific) is a suspension of BioMag particles approximately 1.6µm in size, which are covalently coated with goat anti-Mouse IgG (Fc) antibody. The suspension is supplied in a phosphate buffered saline (pH 7.4) with EDTA and sodium azide added. After shaking vigorously or vortexing, BioMag Goat anti-Mouse IgG (Fc) is ready to use.

## Characteristics

Mean Diameter: ~1.6µm  
Particle Concentration: 5 mg/ml  
Binding Capacity: 1mL (5mg) of BioMag Goat anti-Mouse IgG (Fc) will bind 0.1mg of mouse IgG (Fc).

## Procedure

Researchers are advised to optimize the use of BioMag in any application as procedures designed by other manufacturers may not be ideal.

BioMag Goat anti-Mouse IgG (Fc) is suitable for use as a secondary antibody in radioimmunoassays and enzyme immunoassays which utilize a mouse IgG primary monoclonal antibody. In cell sorting methods utilizing a mouse monoclonal antibody against a specific cell population, BioMag Goat anti-Mouse IgG (Fc) may be used to separate the cells of interest from a cell mixture. (For additional information on the use of this product in cell separation, please see Technical Data Sheet 528, 'BioMag and Cell Sorting.'). Separation may be accomplished magnetically.

## Storage and Stability

Store at 4°C. Freezing, drying, or centrifuging BioMag may result in irreversible aggregation and loss of binding activity.

## Safety

This particle suspension contains sodium azide. Sodium azide may react with lead and copper plumbing to form explosive metal azides. Upon disposal of material, flush with a large volume of water to prevent azide accumulation. Please consult the Material Safety Data Sheet for more information.

**This product is for research use only and is not intended for use in humans or for *in vitro* diagnostic use.**

## Ordering Information

Cat. #	Description	Size
84344-50	BioMag® Goat anti-Mouse IgG (Fc Specific)	50ml
84344-500	BioMag® Goat anti-Mouse IgG (Fc Specific)	500ml
