**Polysciences, Inc. Names
Jeffrey T. DePinto, Ph.D. Catalog Business Manager**
Effective January 19, 2009

Warrington, PA, March, 2008 - Polysciences, Inc. is pleased to announce the appointment of Jeffrey T. DePinto, Ph.D. as the Catalog Business Manager as of January 19, 2009. Prior to joining Polysciences, Inc. Jeff spent 13 years at Air Products and Chemicals, Inc. in a variety of cross-functional positions, including R&D, Sales, Business Development and Business Management. While at Air Products, Jeff spearheaded the strategy for nanotechnology and launched a new business providing nanoparticle-based performance additives to the global coatings industry.

As a member of Polysciences' senior management team, Jeff is responsible for the profitable growth of Polysciences' catalog business, which provides a wide range of specialty monomers, polymers, microparticles, nanoparticles and products for histology and biosciences to the global research community.

Jeff received his Ph.D. from the University of Wisconsin-Madison in organic chemistry in 1993, and worked as a National Institutes of Health postdoctoral fellow at the Massachusetts Institute of Technology in the laboratories of Professor Stephen L. Buchwald.

About Polysciences, Inc.

Headquartered in Warrington, PA., Polysciences, Inc. is a leading manufacturer of laboratory supplies and specialty monomers/polymers for microscopy, histology, biotechnology, electronics and other industrial applications. Although Polysciences offers a full line of off-the-shelf products for the medical, life sciences and research community, its specialty is developing custom-synthesized polymers and monomers for customer-specific needs. Polysciences produces encapsulants and other specialty products for the electronics industry and is an FDA/cGMP facility for the manufacture and packaging of ultra-pure specialty products for the healthcare, pharmaceutical and personal care industries. Polysciences has a more than 40-year history of successful partnerships with industry in developing new materials for emerging applications. Polysciences maintains facilities in Warrington, PA and Eppelheim, Germany. In addition, its wholly-owned subsidiary Bangs Laboratories, Inc. is located in Fishers, Indiana.
