### Section 1: Chemical Product and Company Identification

**Cat#:** 03498  
**Part Name:** POLY(STYRENE-MALEIC ANHYDRIDE) 75:25  
**Supplier:** Polysciences, Inc.  
400 Valley Road  
Warrington, PA 18976 USA  
MSDS Telephone #215-343-6484 Emergency only #215-378-4526

Identified uses: Laboratory use, manufacture of substances

### Section 2: Hazards Identification

**Hazard Overview**

May cause eye irritation.  
Powdered material may form explosive dust-air mixtures.  
Toxicological properties are not known.

**GHS Classification**

**Eye Irritation Category 2B**

**Signal word:** Danger

#### Hazard and Precautionary Statements

- **EUH066** Repeated exposure may cause skin dryness or cracking.  
- **H2** DUST HAZARD  
- **P285** In case of inadequate ventilation wear respiratory protection.  
- **P301D** IF SWALLOWED, induce vomiting as directed by medical personnel.  
- **P302+P352** IF ON SKIN: Wash with plenty of soap and water.  
- **P305B** IF IN EYES, Separate eyelids with finger tips.  
- **P335** Brush off loose particles from skin.  
- **P351** Rinse cautiously with water for several minutes.

**NFPA Rating**

Hazard Ratings:

These ratings are Polysciences’ Inc. own assessments of the properties of the material using the ANSI/NFPA 704 Standard. Additional information can be found by consulting in the NFPA published ratings lists (List 325 and List 49).

If no data is listed the information is not available.

</tbody>
</table>

### Section 4: First Aid Measures

Brush off the skin.  
Flush eyes with flowing water for at least 15 minutes.  
If swallowed, induce vomiting as directed by medical personnel.  
Separate eyelids with finger tips.  
Wash skin with deluge of water for at least 15 minutes.

### Section 5: Fire Fighting Measures

- **Flash point, deg F.:** no data  
- **Method:** nap  
- **UEL:** no data  
- **LEL:** no data  
- **Autoignition temperature, deg. F.:** no data  
- **Flammability Classification:** nap  
- **Flame Propagation Rate:** no data
Section 6: Accidental Release Measures

Any information listed below is to be considered in addition to internal guidelines for isolation of spill, containment of spill, removal of ignition sources from immediate area, and collection for disposal of spill by trained, properly protected clean up personnel.

No special measures are indicated.

Section 7: Handling and Storage

Keep away from heat, sparks, and flame.

Store at room temp

Section 8: Exposure Controls/ Personal Protection

The use of eye protection in the form of safety glasses with side shields and the use of skin protection for hands in the form of gloves are considered minimum and non-discretionary in work places and laboratories. Any recommended personal protection equipment or environmental equipment is to be considered as additional to safety glasses and gloves.

Use process enclosures, local exhaust ventilation, or other engineering controls.

Chemical-resistant gloves should be worn whenever this material is handled. The glove material has to be impermeable and resistant to the product. Gloves should be removed and replaced immediately if there is any indication of degradation or chemical breakthrough. Rinse and remove gloves immediately after use. Wash hands with soap and water. All glove recommendations presume that the risk of exposure is through splash and not intentional immersion of the hands into the product.

Since glove permeation data does not exist for this material, no recommendation for the glove material can be given for the product. Permeation data must be obtained from the glove manufacturer to determine if the glove is suitable for the task.

Section 9: Physical and Chemical Properties

Formula: C9H12.(C8H8.C4H2O3)x  
Formula Weight: nap  
Vapor pressure: nap  
Vapor density: nap  
Boiling point: no data  
Specific gravity: 1.34  
Melting point: 300-340 F  
Ph: no data  
Solubility: negligible  
Appearance: off-white powder

Section 10: Stability and Reactivity

Chemical Stability: stable  
Conditions to Avoid: none  
Incompatibility with other materials: none  
Hazardous Decomposition Products: none  
Hazardous Polymerization: will not occur

Section 11: Toxicological Information

Acute Data: no data  
Subchronic data: no data

Section 12: Ecological Information

no data

Section 13: Disposal Considerations

The following chart lists the status of the chemical and its components in reference to 40 CFR Part 261.33. If the product is listed by code number, the substance may be subject to special federal and state disposal regulations. If no codes are listed the material must be disposed in compliance with all Federal, State and Local Regulations.

Section 14: Transportation Data

Proper Shipping Name: NOT REGULATED
Section 15: Regulatory Information

All components of this product are on the TSCA public inventory.

All components of this product are on the TSCA public inventory.

Prop 65 - Column A identifies those items which are known to the State of California to cause cancer. Column B identified items which are known to the State of California to cause reproductive toxicity.

SARA Toxic Release Chemicals (as defined in Section 313 of SARA Title III)

This list identifies the toxic chemicals, including their de minimis concentrations for which reporting is required under Section 313 of the Emergency Planning and Community Right-to-Know Act (EPCRA). The list is also referred to as the Toxics Release Inventory (TRI) List.

CERCLA

The hazardous substances, and their reportable quantities (RQs) are listed in the federal regulations at 40 CFR Part 302, Table 302.4. Release of a CERCLA hazardous substance in an amount equal to or greater than its RQ, in any 24-hour period, must be reported to the National Response Center at (800) 424-8802.
