Material Safety Data Sheet

Section 1: Chemical Product and Company Identification
Cat#: 24882
Part Name: POLY(2-ETHYL-2-OXAZOLINE)MW200 000
Supplier: Polysciences, Inc.
400 Valley Road
Warrington, PA 18976 USA
MSDS Telephone #215-343-6484 Emergency only #215-378-4526

Identified uses: Laboratory use, manufacture of substances

Section 2: Hazards Identification
Hazard Overview
Low hazard for usual industrial or commercial handling.
GHS Classification
Non-Hazardous

Signal word: non-hazard

Hazard and Precautionary Statements
H000 Low hazard for normal industrial use
P305B IF IN EYES, Separate eyelids with finger tips.
P335 Brush off loose particles from skin.
P351 Rinse cautiously with water for several minutes.

NFPA Rating
Hazard Ratings:
These ratings are Polysciences’ Inc. own assessments of the properties of the material using the ANSI/NFPA 704 Standard. Additional information can be found by consulting in the NFPA published ratings lists (List 325 and List 49).
If no data is listed the information is not available.

Health Flammability Reactivity
1 1 0

Section 3: Composition/Information on Ingredients
Note: Items listed with a CASRN... number have no CAS# available.

</tbody>
</table>

Section 4: First Aid Measures
Brush off the skin.
Flush eyes with flowing water for at least 15 minutes.
Separate eyelids with finger tips.

Section 5: Fire Fighting Measures
Flash point, deg F.: no data
Method: nap
UEL: nap LEL: nap
Autoignition temperature, deg. F.: >750 F
Flammability Classification: nap Flame Propagation Rate: no data
Hazardous Combustion Products: none

Section 6: Accidental Release Measures
Any information listed below is to be considered in addition to internal guidelines for isolation of spill, containment of spill, removal of ignition sources from immediate area, and collection for disposal of spill by trained, properly protected clean up personnel.
No special measures are indicated.

Section 7: Handling and Storage
Store at room temp

Section 8: Exposure Controls/Personal Protection
The use of eye protection in the form of safety glasses with side shields and the use of skin protection for hands in the form of gloves are considered minimum and non-discretionary in work places and laboratories. Any recommended personal protection equipment or environmental equipment is to be considered as additional to safety glasses and gloves.

No special protection is indicated.

Chemical-resistant gloves should be worn whenever this material is handled. The glove material has to be impermeable and resistant to the product. Gloves should be removed and replaced immediately if there is any indication of degradation or chemical breakthrough. Rinse and remove gloves immediately after use. Wash hands with soap and water. All glove recommendations presume that the risk of exposure is through splash and not intentional immersion of the hands into the product.

Since glove permeation data does not exist for this material, no recommendation for the glove material can be given for the product. Permeation data must be obtained from the glove manufacturer to determine if the glove is suitable for the task.

### Section 10: Stability and Reactivity

- **Chemical Stability**: stable
- **Conditions to Avoid**: none
- **Incompatibility with other materials**: strong oxidizers
- **Hazardous Decomposition Products**: none
- **Hazardous Polymerization**: will not occur

### Section 11: Toxicological Information

- **Acute Data**: LD50 oral rat 3980 mg/kg
- **Subchronic data**: no data

### Section 12: Ecological Information

- no data

### Section 13: Disposal Considerations

The following chart lists the status of the chemical and its components in reference to 40 CFR Part 261.33. If the product is listed by code number the substance may be subject to special federal and state disposal regulations. If no codes are listed the material must be disposed in compliance with all Federal, State and Local Regulations.

### Section 14: Transportation Data

- **Proper Shipping Name**: NOT REGULATED
- **Chemical Name**: UN
- **Class**: PG

### Section 15: Regulatory Information

All components of this product are on the TSCA public inventory.

All components of this product are on the TSCA public inventory.
Prop 65 - Column A identifies those items which are known to the State of California to cause cancer. Column B identified items which are known to the State of California to cause reproductive toxicity.

SARA Toxic Release Chemicals (as defined in Section 313 of SARA Title III)
This list identifies the toxic chemicals, including their de minimis concentrations for which reporting is required under Section 313 of the Emergency Planning and Community Right-to-Know Act (EPCRA). The list is also referred to as the Toxics Release Inventory (TRI) List.

<table>

</tbody>
</table>

CERCLA
The hazardous substances, and their reportable quantities (RQs) are listed in the federal regulations at 40 CFR Part 302, Table 302.4. Release of a CERCLA hazardous substance in an amount equal to or greater than its RQ, in any 24-hour period, must be reported to the National Response Center at (800) 424-8802.
