Polysciences, Inc. Appoints Tom Foster as the Director of Supply Chain

Warrington, PA, April 2015 - Polysciences, Inc., an award-winning company specializing in the development and manufacture of high purity chemicals and reagents for laboratory research, histology, healthcare diagnostics and medical devices.

Tom Foster has joined Polysciences, Inc. to lead transformational change in our supply chain planning, purchasing, logistics and customer service functions to prepare the business for significant future growth.

Prior to joining Polysciences, Foster spent 14 years in key positions at privately held pharmaceutical giant Boehringer Ingelheim. Positions included Global Chemicals Sourcing and Supply Chain for Active Pharmaceutical Ingredients, IT Project and Portfolio Management, 3rd Party Manufacturing Sales & Marketing and Customer Service. Foster worked for 5 years at AlliedSignal/Honeywell with multi-site responsibilities covering sourcing and supply chain roles in their Specialty Materials Division. Foster's first 6 years of his career was in quality, manufacturing, and sourcing roles with GE Power Systems and GE Plastics. As a certified Six Sigma Blackbelt he has focused throughout his career on transformational change around people, processes and systems.

Foster received his Bachelor of Science degree in Interdisciplinary Engineering & Management from Clarkson University, Potsdam, NY and Masters of Science degree in Industrial Administration and Statistics at Union College, Schenectady, NY. Foster also completed additional leadership training at GE's Management Development Institute - Crotonville, University of Michigan's Ross School of Business and Duke University's Corporate Education Program on Health Care Delivery in Argentina.

About Polysciences, Inc.

Polysciences Inc. was founded in 1961 and specializes in the development and manufacture of high purity chemicals and reagents for laboratory research, histology, healthcare diagnostics and medical devices. Materials developed for the biomedical and pharmaceutical industries have helped bring about countless innovations in healthcare as well as in high performance adhesives and personal care products. More information about Polysciences, Inc. can be found at www.polysciences.com
