# **Histology / Cytology**

Our expanding line of the histology and cytology reagents includes all dyes on the Biological Stain Commission List. Your suggestions for new or improved histology and cytology products are welcomed. Quantity discounts are available on all products. Please see our Microscopy & Histology Catalog for our complete selection. We will formulate solution dyes in bulk to meet your special needs.

#### **FIXATIVES & REAGENTS:**

| Cat. # | Description                          | Size         |
|--------|--------------------------------------|--------------|
| 16045  | Bouin's Fluid                        | 1 L, 1 gal   |
| 09860  | Ethyl alcohol (95%), Histology Grade | 1 gal        |
| 00625  | Formaldehyde, solution, 37% aqueous, | 1 gal        |
|        | U.S.P. Histology Grade               |              |
| 08379  | Formalin, 10% Buffered Neutral       | 3.75 L, 20 L |
| 08389  | Xylene, Histology Grade              | 1 gal        |
| 21516  | Zinc Formalin Fixative, ph 6.25      | 3.75 L       |
|        | (Buffered)                           |              |

# **POLY/LEM FIXATIVE**

This Modified Millonig's Formalin is based on the formula by F.L. Carson can be used for both Light and Electron Microscopy LEM fixation. REF.: Carson, F.L., Amer. J. Clin. Path., 59:365 (1973).

| Cat. # | Description                      | Size       |
|--------|----------------------------------|------------|
| 16864  | poly/LEM Fixative, Methanol Free | 3.75 L     |
|        |                                  | 4 x 3.75 L |

# **TISSUE CASSETTE IV**

The unique patented design permits maximum fluid exchange and drainage during processing. These heat & chemical resistant plastic cassettes can also be used in microwave techniques and decalcifying solution. Their universal size fits all popular base molds and is available in seven colors.

| Cat. # | Description | Size          |
|--------|-------------|---------------|
| 21468  | Blue        | 250 cassettes |
| 21469  | Yellow      | 250 cassettes |
| 21471  | Pink        | 250 cassettes |

#### **PARAFFIN, POLYFIN**

This is a mixture of fine paraffin waxes and copolymer alloys in convenient pellets. PolyFin produces ultra-thin compression- free ribbons. It is used to cut 2 micron sections routinely with- out icing. PolyFin provides maximum support for both hard and soft tissue samples while maintaining exceptional clarity. The low 55°C melting point eliminates excessive heat distor- tion during tissue processing.

| Cat. # | Description                              | Size              |
|--------|------------------------------------------|-------------------|
| 19562  | Paraffin, Polyfin <sup>™</sup> , mp 55°C | 1 case (8 x 1 kg) |
|        |                                          | 1 keg (15 kg)     |

# POLYFREEZE

A cryostat embedding medium sections flawlessly at routine frozen specimen thickness of 5-6 $\mu$  and leaves no slide residue. It provides for -20°C cryostat LM sectioning in rapid set embedding. PolyFreeze is water soluble.

| Cat. # | Description | Size                     |
|--------|-------------|--------------------------|
| 19636  | PolyFreeze  | 4oz, 1 case (6 x 120 mL) |

# POLYGUARD

A xylene free paraffin repellent, PolyGuard is used to put a protective coating on surfaces exposed to paraffin as well as to clean adhering paraffin off laboratory counterparts and equipment.

| <b>Cat. #</b><br>21168 | Description<br>PolyGuard | Size<br>120mL<br>1 case (6 x 120 mL) |  |
|------------------------|--------------------------|--------------------------------------|--|
| MICROSCOPE SLIDES:     |                          |                                      |  |
| Cat. #                 | Description              | Size                                 |  |
| 21911                  | Frosted                  | 1 box / 72 slides                    |  |
| 22247                  | Poly-L-Lystine Coated    | 1 box / 72 slides                    |  |

Should any of our materials fail to perform to our specifications, we will be pleased to provide replacements or return the purchase price. We solicit your inquiries concerning all needs for life sciences work. The information given in this bulletin is to the best of our knowledge accurate, but no warranty is expressed or implied. It is the user's responsibility to determine the suitability for their own use of the products described herein, and since conditions of use are beyond our control, we disclaim all liability with respect to the use of any material supplied by us. Nothing contained herein shall be construed as a recommendation to use any product or to practice any process in violation of any law or any government regulation.

# **TECHNICAL DATA SHEET 290**

# **MICROSCOPE SLIDES, CONTROL**

A new approach to control slides. This slide allows the control specimen and the patient's specimen to be on the same slide with positive identification of both specimens. The slide has a frosted end for easy marking and special coating for enhanced sample adhesion to the slide.

| Cat. # | Description                | Size              |
|--------|----------------------------|-------------------|
| 24012  | Microscope Slides, Control | 1 box (72 Slides) |

#### **DYES AND STAINS:**

Polysciences offers all the dyes certified by the Biological Stain Commission. For a full listing of these and additional dyes look in the Alphabetical section of our current Microscopy & Histology Catalog.

#### **COUNTERSTAINS**

| Cat. # | Description             | Size          |
|--------|-------------------------|---------------|
| 09859  | Eosin Y, 0.5% Alcoholic | 500mL, 1000mL |
|        | contains acetic acid    | 3.75 L        |
| 17269  | Eosin Y, 1% Alcoholic,  | 500mL         |
|        | contains no acetic acid | 1000mL        |
| 09782  | Gill's Modified OG-6    | 500mL, 1000mL |
|        |                         | 3.75 L        |
| 09783  | Gill's Modified EA      | 500mL, 1000mL |
|        |                         | 3.75 L        |

#### FUNGI-FLUOR™ PNEUMOCYSTIS KIT

The Fungi-Fluor<sup>TM</sup> Pneumocystis Kit offers a fast, fluorescent staining procedure for Pneumocystis carinii in bronchial specimens. Request Data Sheet #482. The kit consists of 10 ml of staining solution (100+ applications) and 10 positive unstained control slides.

| Cat. # | Description                        | Size      |
|--------|------------------------------------|-----------|
| 22363  | Fungi-Fluor™ Pneumocystis Kit      | 1 kit     |
| 22251  | Pneumocystis carinii contrl slides | 10 slides |

#### **GOMORI'S TRICHOME**

| Cat. # | Description                       | Size  |
|--------|-----------------------------------|-------|
| 16091  | Gomori's One-step Trichrome Stain | 1 kit |
|        | Request Data Sheet #389           |       |

# MULTIPLE STAIN SOLUTION

This quick dip stain can be directly applied to frozen sections to differentiate acidophilic and basophilic structures, similar to hematoxylin and eosin, in a fraction of the time. Request Data Sheet #269.

| Cat. # | Description             | Size   |
|--------|-------------------------|--------|
| 08824  | Multiple Stain Solution | 100mL  |
|        |                         | 500mL  |
|        |                         | 1000mL |

# **TB FLOUROSTAIN KIT**

The TB Fluorostain kit offers a fast, fluorescent, microwavable staining method for mycobacteria. Request Data Sheet #488.

| Cat. # | Description        | Size  |
|--------|--------------------|-------|
| 22422  | TB Flourostain Kit | 1 kit |

# **IMMUNOHISTOCHEMICAL REAGENTS:**

Additional reagents for histochemistry, immunocytochemistry and enzyme immunoassays can be found in our catalog.

# MOUNTING MEDIA: Aqua-Poly / Mount

A water-soluble, non-fluorescing mounting medium. Useful for frozen sections, fat stains and immuno-stains when aqueous mounting media is required.

| Cat. # | Description       | Size     |
|--------|-------------------|----------|
| 18606  | Aqua-Poly / Mount | 20mL     |
|        |                   | 100mL    |
|        |                   | 5 x 20mL |
|        |                   |          |

# POLY-MOUNT

Permanent acrylic mounting medium for cover glasses: fast drying, crystal clear, miscible with xylene or toluene.

| Cat. # | Description | Size  |
|--------|-------------|-------|
| 08381  | Poly-Mount  | 120mL |
|        |             | 940mL |

#### **ACCESSORIES:**

Polysciences also offers a full line of equipment for the Histology Laboratory: coplin jars, microscope slide storage trays, boxes and cabinets, grossing boards, timers, marking pens and books. Please see our Microscopy & Histology Catalog for our complete selection.

#### **MICROTOME BLADES, DISPOSABLE**

Shur/Sharp blades represent the ultimate in technology. Chatterless and compression-free ribbons will become routine for all types of tissue. For use with AO or other high profile blade holders. There is a choice of three types of disposable blades to meet all the sectioning needs.

| Cat. # | Description                     | Size      |
|--------|---------------------------------|-----------|
| 22080  | AO or Reichert Microtome Blades | 50 Blades |
| 22380  | Heavy Duty Microtome Blades     | 35 Blades |
