

BioMag[®] MultiSep Magnetic Separator

Catalog Number: 85200

DESCRIPTION

The BioMag[®] MultiSep Magnetic Separator is one magnetic separator that can be used for different tube sizes, which makes it a convenient and economical alternative to having a specific magnetic separator for each tube size. The MultiSep can be used with 50ml, 15ml or 1.5ml centrifuge tubes and has a simple robust design. The MultiSep is well-suited for those labs that do not need to perform simultaneous multiple magnetic particle separations.

PROCEDURE

When the tube is placed in the tube holder, the magnetic particles are pulled to the side of the unit to complete a separation in less than 1 minute. Upon completion of the separation, the supernatant may be aspirated, leaving the magnetic particles as a pellet on the side of the tube.

STORAGE AND SAFETY

Storage The BioMag[®] Multi-6 Microcentrifuge Tube Separator should be wiped clean with mild detergent. Do not immerse. Harsh chemicals and organic solvents may damage the surface of the unit.

Safety Strong magnetic field. This separation unit should be used and stored a safe distance from magnetic media, such as computers, videotapes, credit cards, etc.

This product is for research use only and is not intended for use in humans or for *in vitro* diagnostic use.

ORDERING INFORMATION

Cat. #	Description	Size
85200-1	BioMag [®] MultiSep Magnetic Separator	1 each
